

THE YOLO DEMOCRAT.

Miscellaneous Items.

A Virginia editor wrote something about his *Alma Mater*, and the *Yolo Democrat* says "Alma Mater."

An arctic well at Joliet, Ill., 420 feet deep flows 8,000 barrels of pure water every 24 hours.

It is said that trichine have been discovered in the flesh of deer shot in their native wilds in Oregon.

The Masonic lodges all over Europe are taking up contributions in aid of the wounded and disabled victims of the war.

The first remittance received in Paris from foreign soil for the French Sanitary Fund was sent by natives of France residing in San Francisco.

They have a queer law in Delaware. It requires a man, before leading a woman to the matrimonial altar, to give bonds for good behavior.

Premiums and purses to the amount of \$30,000 are offered for the best essay on the subject of the ten thousand for the race.

The Supervisors of Sutter county have reduced the assessment of the California Pacific Railroad from seven thousand dollars per mile, to four thousand.

The census returns are going to Washington very rapidly, so that it is expected to give the population statistics to the public by the 10th of September.

The Forty-first Congress expires on the 4th of March, 1871, and the Forty-second begins its legal existence on the 5th of March, 1871, and closes two years after, on the 4th of March, 1873.

The Scientific American informs the ladies that if they would have corn beef jelly after it is cold, and not as dry as a chip, they should put it on to cook in boiling water, and they should not take it out of the pot when done until cold.

The contract for building the great bridge over the Mississippi river, at Hannibal was let recently to the Detroit Iron Works Company—the contractors enter into bonds to have the entire work completed in one year.

A pair of precious little damsels at Troy, New York, were overheard one evening on the sidewalk, exchanging notes upon the Franco-Prussian war. "I know," said No. 1, "that France will beat, because the little Prince is with him." "Go away with you," chimed in No. 2. "I know a mighty sight better. The Dutch will whip for my Pa is a Frenchman and my Ma is a Dutchman. They fight every night, and Ma always wins."

CORNELIUS VAN DERBILT, called by almost every one the "Commodore," is now well on towards 80 years of age. He is probably worth \$75,000,000, though his death would naturally cause a shrinkage in the value of his railroad stocks amounting to many millions. All this money he has made by his own remarkable wit. Stewart is worth some \$25,000,000 more, and the Astors probably a little less.

The correspondents of Berlin enumerate the German troops now in the field as follows: Confederation of the North—infantry, 550,000; cavalry, 53,000; artillery, 1,200 guns; infantry, regulars, 187,000; cavalry, 18,000; artillery, 234; landwehr infantry, 205,000; cavalry, 10,000; total for the Confederation of the North 994,000 men, 1,680 pieces of artillery, and 198,000 horses. Adding to these the troops of Bavaria, Wurtemberg, and Baden, there is a force of 1,142,000.

The Democracy of Delaware call upon their fellow citizens who have heretofore opposed their party organization to join them now in rebuking the base and desperate attempt of a falling party to prolong its power at the cost of degrading American citizenship and risking our last hope for self-government by a free and intelligent nation of white men upon whose virtue and intelligence we can alone rely for its maintenance.

"We anticipate," says Marshal McMahon, "a great strategical advantage from the advance of the enemy and his movements within our territory." "I kept the fellow down," said John Phoenix, in describing a combat in which he was worsted, "by inserting my nose firmly between his teeth and resolutely holding it there."

The point where the Northern Pacific Railroad is to cross the Mississippi, has been located by Governor Smith's party and is named Oge-ma-quah, or Chief Queen. It is twelve miles above Crow Wing, or 140 miles above Saint Paul. The Northern Pacific is to run from Lake Superior by Mille Lac and Crow Wing across the Red river of the North to Olympia, Washington Territory.

Nor long since one of the worthy citizens of our goodly little town, engaged at the thick-headedness of a townsman vehemently exclaimed: "I'll tell you what, sir, if I were so unfortunate as to be addicted to profanity, I should do justice to the occasion by calling you a d—d old donkey!" The man regarded his companion for a moment with an indignant expression of countenance and then observed: "wal, now, I'm kind er glad ye said that, becuz if ye were there'd be a right smart chance of a scrimmage!" The ludicrousness of the situation here dawning in and dispelled an unpleasantness.

RAW BEEF DIET.—Physicians are now administering to consumptives a diet of finely chopped raw beef prepared by seasoning with salt and heated by placing the dish containing it in boiling water. This food is given also in cases where the stomach rejects almost every other form of food. It assimilates rapidly and affords the best nourishment, while patients learn to long for it and like it as much as Dr. Kane did his Arctic dinners of raw seal and walrus.

OUT OF THEIR OWN MOUTHS ARE THEY CONDEMNED.—Grant's Attorney-General, Ackerman, delivered a political speech to a Radical Club in Washington on the night of the 12th inst., in which he complimented the general good order and condition of society in the Southern States as comparing favorably with that of any portion of the world. This speech is in remarkable contrast with the false reports published over the country to justify the armed efforts of Grant and Holden to inaugurate a civil war in North Carolina for the purpose of controlling the recent election, and was perhaps intended as an atonement for this outrage. Or perhaps the Administration, because of the signal failure of its efforts to carry the election by force of armed banditti, has concluded to assume the virtues of truth and decency, and try the effect of such means to win votes for Radicalism. This assumption is suggestive of the color of his skin or a leopard changing his spots, but the effort, although made in vain, entitles the administration to the credit of recognizing the existence of virtue by assuming it.—*Examiner.*

WOMAN.

Females, owing to the peculiar and important relations which they sustain, their peculiar organization, and the offices they perform, are subject to many sufferings. Freedom from these contributes in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but no one of these various female complaints can long be suffered to run on without involving the general health of the individual, and ere long producing permanent sickness and premature decline. Nor is it pleasant to consult a physician for the relief of these various delicate affections, and only upon the most urgent necessity will a true woman so sacrifice her greatest charm as to do this. The sex will then thank us for placing in their hands simple specifics which will be found efficacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex.

HELMHOLD'S EXTRACT OF BUCHU.—Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to insert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air or food, profuse menstruation the use of tea and coffee, and frequent childbearing, it is far often caused by direct irritation applied to the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of women in all classes of society, and which, consequently, affect more or less directly the welfare of the entire human family. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus, with the body half clothed and the mind unduly exercised by pleasure, perverting in midnight revels the hours designed by nature for sleep and rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a later day, thus aggravating the evil. When one excitement is over, another in prospect keeps the mind morbidly sensitive to impression, while the now constant restraint of fashionable dress, absolutely forbidding the exercise indispensable to the attainment, and retention of organic health and strength; the exposure to night air; the sudden change of temperature; the complete prostration produced by excessive dancing, must of necessity produce their legitimate effect. At last, an early marriage caps the climax of misery, and the unfortunate one, hitherto utterly regardless of the plain dictates and restraints of her delicate nature, becomes an unwilling subject of medical treatment. This is but a truthful picture of the experience of thousands of our young women.

Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue, which, in common with the female breast and lips, evidently under the control of mental emotions, and associations at an early period of life; and as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which sap the very life of their victims ere nature has self-completed their development.

For female weakness and debility, whites or leucorrhoea, too profuse menstruation, exhaustion, too long continued periods, for prolapsus and bearing down, or prolapsus uteri, we offer the most perfect specific known—HELMHOLD'S COMPOUND EXTRACT OF BUCHU. Directions for use, diet, and advice accompany.

Females in every period of life, from infancy to extreme old age, will find it a remedy to aid nature in the discharge of its functions. Strength is the glory of manhood and womanhood. HELMHOLD'S EXTRACT BUCHU is more strengthening than any of the preparations of Bark or Iron, infinitely safer and more pleasant. HELMHOLD'S EXTRACT BUCHU, having received the endorsement of the most prominent Physicians in the United States, is now offered to afflicted humanity as a certain cure for the following diseases and symptoms, from whatever cause originating: General Debility, Mental and Physical Depression, Imbecility, Determination of Blood to the Head, Confused Ideas, Hysteria, General Irritability, Restlessness and Sleeplessness at night, Abstinence of Muscular Efficiency, Loss of Appetite, Dyspepsia, Emaciation, Low Spirits, Disorganization or Paralysis of the Organs of Generation, Palpitation of the Heart, and, in fact, all the concomitants of a Nervous and Debilitated state of the system. To insure the genuine, ask this out. Ask for HELMHOLD'S. Take no other. Sold by Druggists and Dealers everywhere. Price \$1.25 per bottle, or six bottles for \$6.00. Delivered to any address. Describe symptoms in all communications. Address H. T. HELMHOLD, Drug and Chemical Warehouse, 304 Broadway, N. Y.

NONE ARE GENUINE UNLESS DONE UP in steel engraved wrapper, with the simile of my Chemical Warehouse, and signed H. T. HELMHOLD.

Wholesale Agents in Sacramento, 427-2m H. C. KIRK & CO., 114 1/2 street.

NEW WEED SEWING MACHINES!

"The Last and Best!" The following is the facsimile of the Medal awarded the NEW WEED Sewing Machines at the late Paris Exposition:

The Weed Sewing Machine Company has now at last completed their Three Standard styles of

First—Their new "Family Favorite." Second—Their new, light and noiseless "Manufacturers' Sewing Machine." Third—Their improved heavy "Manufacturers' Favorite." The three together combining the advantages of all others up to the present time, being the BEST made and doing the best work—has received throughout Europe, the States, and on this coast, the First and Highest Premium at each and every public Fair since 1867 (the year it was completed), where any premium at all has been given or where its strong points have been really exhibited.

There is a difference!—All the Premiums that the WEED Sewing Machine Company claim, from the First and Highest Premium at the Great World's Fair at Paris, in 1867, up to the present time, (see small circulars) are each and every one genuine awards, or we will forfeit \$500 for each and every false claim! Other Sewing Machines have not.

There is a difference!—This magnificent Sewing Machine comes forward in good time and strikes exactly the right mark. "Such a Sewing Machine as the WEED—the NEW F. E.—has never been seen." Thus the NEW WEED Sewing Machine is the simplest and strongest, the last, and as we believe the most important improvement we may add the BEST Sewing Machine made as yet. It is the best Family Sewing Machine; it is the best Sewing Machine for the Manufacturer; it is the most successful Sewing Machine for the Sewer; it is in fact, the best Sewing Machine in the world.

Price, from \$65 to \$500. S. E. HOAR, General Agent, No. 323 Kearney street, San Francisco.

Grover & Baker's ELASTIC STITCH FAMILY SEWING MACHINES Excel all others.

They are more simple and durable, easier kept in order, make a stronger and more beautiful elastic stitch than any other. They use all fabrics from the coarsest to the finest, require no winding of thread, fasten both ends of the seam to their own work, and will stitch every fifth stitch is cut the seam will not rip.

They Stitch, Hem, Fell, Cord, Bind, Tuck, Quilt, Gather, Braid, Embroider, Ruffle, Puff, and excel in Every Class of Machine Work.

Grover & Baker's Improved Elastic Stitch SEWING MACHINES, For Manufacturing, Are the Latest and Best.

We request the attention of Tailors, Manufacturers of Boots and Shoes, Carriage Trimmings, Clothing, and all others requiring the use of the elastic stitch, or weak, loose, fast, or strong, to call on us for the new Sewing Machine, which possesses unimitable advantages over all others.

The Continued Triumph of "Grover & Baker," is the best evidence of their merit. Over 12,000 are in successful operation on the Pacific Coast, and their sales yearly increase against most determined competition.

R. G. BROWN, Agent, 116 Montgomery Street, SAN FRANCISCO, 116-118

DR. SAGE'S CATARRH REMEDY

This remedy does not simply relieve for a short time, but it produces permanent cures of the most chronic cases of Catarrh, and I will pay \$500 reward for a case of Catarrh cured by this remedy.

Headaches are cured with a few applications, or otherwise, swelling up of the nose at times, partial loss of the sense of smell, taste or hearing, eyes watering or weak, feet dull, have pain or pressure in the head, or any of the above symptoms, manifesting themselves annually, without manifesting in half of the above symptoms, terminating in chronic Catarrh, and in fact, in a case so common, more deceptive or less understood by physicians. I will send my pamphlet on Catarrh to any address free. Dr. Sage's Catarrh Remedy is now
